

Small Arlington-based water/wastewater specialty consultant seeks licensed engineer. Work involves a wide range of assignments for larger firms and for major cities and special districts. Experience with water and wastewater utilities and Texas PE desired.

Experience with facility rehabilitation, odor/corrosion abatement, and water treatment is a plus. Minimal travel; flexible but competitive salary, benefits, and work hours.

Excellent “ground-floor” growth opportunity. Please e-mail resume to aroberts@perkinsconsultants.com
